

WV HS Soccer Coaches Association
Weekly Soccer Rankings Explanation

The rankings are not a poll. The rankings are based on a mathematical formula that awards points for a teams wins and ties and points for the wins and ties of defeated and tied opponents.

The columns are as follows

W-L-T Win, Loss, Tie

Games the # of games played as of the Saturday of that week.

Opp Rating this is the total points earned from defeated and tied opponents. This can be checked by adding up the # in the bonus column for each defeated team and by using $\frac{1}{2}$ the bonus for tied teams.

PTS # of points earned by the team. 10 for each win and 5 for ties. $7-1-1 = 75$

Total Points add Opp rating and PTS

Bonus the # of points that a team would get if they beat your team. $\frac{1}{2}$ for a tie. 2 points for each win and 1 for each tie.

AVG total points divided by the # of games played.
