TO: West Virginia Soccer Association Members
SUBJECT: COVID-19 Safety Feature - Apps

WVSA has come across a couple of apps for member associations to use that lets parents or players verify that they are symptom free when they mark their attendance for a team event.

Ollie Sports

If you'd like to get Ollie set up for your **TEAM**, you can download their app free and get started here:
https://api.olliesports.com/download

If you are interested in using Ollie for your **ENTIRE CLUB organization,** contact Ollie here:
https://www.olliesports.com/signup

This app is being offered for FREE for WVSA members.

Team Snap

http://www.teamsnap.com/teams/features/health-check

There is a cost associated with the advanced features of this app. There is a free base version (which includes a health check for individual teams)

NOTE FOR BOTH APPS: The only question not on either app is about equipment cleaning. *Clubs and teams will need to continue to remind their members to clean their equipment.*

NEITHER OF THESE APPS ARE MANDATORY. HOWEVER, THEY ARE ACCEPTABLE TO USE BY WVSA MEMBERS.
