WASH YOUR HANDS!

1 Wet

2 Get Soap

3 Scrub

4 Rinse

5 Dry

Hands that look clean can still have icky germs!

This material was developed by CDC. The Life is Better with Clean Hands campaign is made possible by a partnership between the CDC Foundation, GOJO, and Staples. HHS/CDC does not endorse commercial products, services, or companies.

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention

The infographic is set against a light blue background with white and yellow stars and bubbles. It features five numbered steps in blue speech bubbles: 1. Wet (hand under a faucet), 2. Get Soap (hand next to a soap dispenser), 3. Scrub (hands being rubbed together with bubbles), 4. Rinse (hand under a stream of water), and 5. Dry (hands under a paper towel dispenser). A cartoon germ character with a speech bubble is at the top right, saying "Hands that look clean can still have icky germs!". The CDC logo and text are in the bottom right corner.
